FULL-STACK DEVELOPER

REACT | TYPESCRIPT | NODE | PYTHON | DATA MODELING | IIOT

Versatile Software Developer with 8+ years of engineering expertise, seamlessly transitioning between backend and frontend roles. Recognized for rapid learning, critical thinking, and meticulous attention to detail. Demonstrates strong teamwork and independent problem-solving skills while consistently delivering high-impact technological solutions with unwavering commitment and professional excellence.

PROFESSIONAL EXPERIENCE

GoGrow Inc.

08/2021 - 10/2023

Front-End Developer | Remote - Montevideo, Uruguay

Implemented frontend development solutions for 10+ clients across diverse industries, driving web performance and user experience improvements.

- Enhanced frontend development efficiency by 40% through strategic implementation of React, TypeScript, and Tailwind CSS, delivering responsive web applications with 95% cross-browser and cross-device compatibility.
- Collaborated with cross-functional engineering teams to architect and develop SEO-optimized frontend solutions, reducing page load times by 25% and improving overall site performance metrics.
- Conducted comprehensive code reviews, resulting in a 30% improvement in codebase maintainability and reduced technical debt.
- Developed modular, scalable user interfaces utilizing modern frontend technologies, ensuring pixel-perfect implementation and adherence to design system principles.

Rakiduamn SRL.

02/2016 - 12/2020

Software Engineer | Hybrid - Barda del Medio, Rio Negro, Argentina

Drove 100% successful development and strategic management of enterprise software solution for Oil & Gas (O&G) sector, delivering a specialized product that optimized operational efficiency and regulatory compliance. Spearheaded end-to-end product lifecycle management, achieving:

- Coordinated cross-functional collaboration with 15+ key stakeholders to define and prioritize critical software features, ensuring 90% alignment with industry regulatory standards and operational requirements.
- Led comprehensive software development lifecycle (SDLC), overseeing planning, design, development, quality assurance testing, and successful market release of industry-specific technological solution, reducing time-to-market by 40% through agile methodologies and strategic planning.

EDUCATION

Universidad Adventista del Plata

Entre Rios, Argentina

Bachelor of Science (BS) in Computer Information Systems

02/2008 - 11/2015

SKILLS

Programming Languages: HTML, CSS, JavaScript, TypeScript, Python, SQL, NoSQL

Libraries: React.js, Material UI, Next UI, Redux, Tanstack Query

Frameworks: Next.js, Node.js, Tailwind CSS, Material UI, Next UI, Ionic, MySQL, PostgreSQL, Supabase, MongoDB, Strapi, Webflow

Dev Tools: VS Code, Git, Github, JIRA, SCRUM, Notion, ClickUp

Concepts: REST API

Languages: Spanish (Native), English (C1), Portuguese (Intermediate)
